SKILLS

React · Next.js
TypeScript · JavaScript
HTML · CSS · Tailwind CSS
Python · Flask · PHP
REST APIs · API integration
PostgreSQL · Supabase
Three.js · WebGL · Plotly
Git · Vite
UI/UX · Figma
AI agents · RAG · MCP
AI-assisted · Automation

LANGUAGES

Portuguese Native
English Fluent (C2)
Spanish Intermediate (B2)

EDUCATION

BSc Design and Multimedia
FCTUC - University of Coimbra
2020 - 2025

MSc Electrical and Computer Engineering (not completed)
FCTUC - University of Coimbra
2014 - 2019

+EXPERIENCE

Visual Identity Lead
BEST Coimbra | 2017

Comms Coordinator
NEEEC - FCTUC | 2017

EXPERIENCE

SIM Conference App coordinator

Startup Portugal | 2026

• Managed conference app operations for 4,000+ attendees, 450+ startups, 270+ investors, 130+ speakers and 1,000+ app meetings.
• Built SIMsync, a Python tool integrating APIs and CSV imports to reduce repetitive event-data synchronisation; used Git for version control.
• Troubleshot participant data, synchronisation and app issues during live operations.

Web Developer

Doppel, IPN Coimbra | 2023

Built and deployed the company website using React, TypeScript and Tailwind CSS, with interactive 3D elements created in Three.js.

PROJECTS more on GitHub

HDF5 Data Dashboard

Python • Flask • JavaScript • Plotly

Built an HDF5 data visualisation dashboard with a Python/Flask backend and a JavaScript frontend, using Plotly for interactive charts.

EatEasy

PHP · JavaScript · HTML · CSS

Developed a restaurant reservation prototype with separate customer and administrator interfaces, using mock data to demonstrate booking and management workflows.

SIM Sync

Python · Tkinter · REST APIs · CSV

Built an internal tool for SIM Conference to validate CSV inputs and import event and participant data through REST APIs. Reduced repetitive synchronisation work and helped troubleshoot participant data and app integration issues.
